Date: 29<sup>th</sup> March 2023

**Name of the Event: Tree Plantation on the Occasion of Foundation Day and Silver Jubilee  
of Maharashtra University of Health Sciences, Nashik**

### **INTRODUCTION ABOUT THE EVENT**

As 2023 is the Silver Jubilee week of Maharashtra University of health sciences, Nashik, we at Suryadatta college of physiotherapy organized the Tree Plantation event on 29 Feb. 2023 on the prestigious occasion Chief Guest of the day was **Hon'ble Chairman, Sanjay Chordiya sir (Suryadatta Education Foundation). Principal Smt. Dr. Seemi Retharekar Suryadatta college of physiotherapy** On this day, first of all, Staff and students participated in Tree Plantation Program. On the same day, 30 plants were planted. The main aim to organize this event was to motivate students and society at large for planting more trees and to create awareness about Tree Plantation, Tree care, and Environmental Protection. Climate change is due to the unrestrained cutting of trees. Trees are of invaluable importance to our environment and to human well-being. They give us clean water to drink, air to breathe, shade, and food for humans, animals, and plants. Trees are so important for the global environment and the health of the species that live there, and they need our unconditional care and protection.

Our chief guest **Hon'ble Chairman, Sanjay Chordiya sir** guided us about Tree plantation, Tree care, and Environmental Protection. He spoke about 'Tree plantation' You know how greatly beneficial trees are? They, in fact, sustain our lives. Just imagine, if they had not provided us with oxygen or with food, fuel, furniture, fruits, herbs, and houses for birds, what kind of life it would have been? Well, there wouldn't have been life at all. Just planting the saplings and letting nature take care of the rest will not help. It is our duty as good dedicated citizens to look after these saplings and water them. Besides this, trees cause rain which is as necessary as air. They give us a beautiful landscape and help in the ecological balance of nature. You can imagine the surface of the moon. Our earth would be like that without trees – lifeless, colorless, lusterless. We are here because of them. We must therefore start valuing them. In the past trees were planted by kings and nawabs on roads, around palaces, and in gardens.

He further added, in modern times local governments have been planting them on roads and in parks. In the future people shall plant them almost everywhere in vacant spaces. Our disregard for trees has borne

us sour fruits. See the effects of deforestation and increasing urbanization. Environmental pollution is their result. Global warming or the Green House effect has caused drought conditions in many parts of the world. Undoubtedly many states in our country are reeling under scanty rainfall. If we are really serious about the value of tree plantation due to these reasons, it becomes our urgent duty to plant more and more trees on every available inch of land. It is the need of the hour that something should be done to restrain the increasing environmental degradation by planting more trees and implementing various laws to check tree felling. If something is not done soon, the damage to our biosphere will be difficult to repair.

Bavdhan forest forum member Mr. Krishnan Subramanian interacted with 1<sup>st</sup> and 2<sup>nd</sup> year students about tree plantation, tree care, and environmental protection.

### **OBJECTIVES/ LEARNING OUTCOMES**

| <b>Sr. No</b> | <b>Objectives</b>                           | <b>Learning Outcomes</b>  |
|---------------|---|---|
| 1             | To be aware of the causes of global warming | Participants will understand the actual Causes of Global Warming.                   |
| 2             | To sensitize Everyone to plant trees        | Participants will Plant a maximum number of trees where they can easily             |
